### **DETAILED ACTION**

The following is a response to the amendment received on May 23, 2005 which has been entered.

#### ***Response to Amendment***

Claims 2-10 are pending in the application. Claim 1 has been cancelled.

-The objection to claim 8 has been withdrawn due to applicant correcting/changing the dependency of this claim.

-The 102(a) and (e) rejection of claim 1 has been withdrawn due to applicant amending indicated allowable claim 2 with the subject matter of cancelled claim 1.

-The 103(a) rejection of claims 1 and 8 has been withdrawn due to applicant amending as indicated above.

#### ***Allowable Subject Matter***

Claims 2-10 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-(as to claims 2, 9 and 10) a hybrid transmission having a housing with a split section positioned between a differential speed unit and a motor generator wherein a wiring of the motor generator is exposed between a space of the motor generator and differential unit and led to an outside of the housing near the split section through an opening formed in the housing in combination with an outer rotor shaft connected to a connecting member positioned at one axial end of the motor generator and opposite

the other axial end facing the differential unit and in combination with all the remaining limitations of claims 2, 9 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
